WORK EXPERIENCE

Meta – Menlo Park, California

2022 – Present

Program/Community Manager – Nourished Teachers (Education Modernization)

- **Community and Program Development:** Co-design with practicing classroom educators The Nourished Teachers Community using FB Groups, increasing positive brand sentiment in an industry for folks that have been historically marginalized.
- **Project Management and Operational Strategy:** Use data driven insights, as well as the school cycle, to inform the **strategic direction and growth** of the community at the “speed of trust” and standards alignment. Gather K-12 user feedback and community sentiment from hundreds of educators on Meta tools, products, and services. Achieved a 196% increase in group members since January while maintaining an active rate of engagement of >97%, all while focused on nourishing the “whole teacher.”
- **People Management:** Empower and enable the team by co-designing, coaching, facilitating, centering equity, and leading with empathy. Hosted 50+ events for educators to connect and deepen relationships both personally and professionally, creating a ripple effect of impacting thousands of learners and the greater community.
- **Cross-Functional Collaboration and Partnerships:** Worked with external partners, marketing, design, and the Policy team to present a new Meta-for-education branded offer, Teacher Community Popups, giving 3k+ education stakeholders (leads) access to cutting-edge Meta products, experience, and VR demos in-person.

Knowing Technologies – San Mateo, California

2019 – 2021

Instructional Innovation Coach & Partnership Success Manager

- **Strategy Consultant:** Collaborated with stakeholders in schools to develop and drive a robust technology plan and strategy that aligns with their school’s mission and goals for teaching and learning. Gathered information and provided strategic educational insights to schools.
- **Product Development:** Collaborated closely with Engineering and Strategy team to create the service model, including objectives, timeline, and marketing material supporting sales.
- **EdTech Coach:** Provided highly personalized instructional coaching, consulting, and professional development programs to educational institutions across the country.
- Worked with 100+ K-12 educators, school leaders, administrators, and stakeholders to deliver engaging, innovative support and **digital learning** as they experimented, refined, and transformed their learning environments with **technology**.
- Innovated on the cutting edge of ongoing trends in EdTech. Was ranked as being one of the ‘first responders’ to educational shifts during COVID-19.
- Supported the development of the **in-person, virtual, and hybrid** model of teaching. Developed a strong social media presence and following across EdTech platforms.
- Developed strong partnerships with various EdTech companies in leading virtual and remote camps and conferences, including C3, CUE, ISTE, and ATLAS.
- Certified in various technology and pedagogy tools, including Flipgrid, Seesaw, Edpuzzle, GSuite, and Apple.

AltSchool – San Francisco, California

2016 – 2019

Lead Middle School STEM Educator and Curriculum Designer

- Ranked in top 2 employees company-wide, leading to an interview by PBS, Larry Cuban, and several documentary crews that featured alternative technology and education companies.
- **Department Head:** Designed competency-based, personalized, and experiential-based learning arcs based on each student’s abilities, needs, and social-emotional learning goals.
- **High School Advisor:** Worked closely with the **admissions team** in onboarding and admitting more than half of the middle school student body. Supported all 8th grade students apply to prospective schools.
- **Curriculum Designer:** Led 80 students in physical, life science, forensics, algebra and pre-calculus as well as **interdisciplinary, project-based** learning at a dynamic **EdTech startup** focused on whole-child personalized education. Most instruction was delivered through a **social justice lens**.
- Designed the **Educator Pathways Program** for educators to excel in a competency-based environment and become specialists in pedagogy, practice, platform, partners, and professionalism.
- Curated a safe, supportive, and **learner-centered community** where students had agency to pursue their goals through a personalized approach via advisory, the AltSchool platform, and frequent communication. Expanded beyond school network by sharing materials, best practices, research, and mentoring other educators in the region.
- Collaborated closely with the Pedagogy and Engineering teams to collect data and refine innovative tools for documentation, assessment collection, and parent communication.

Tashirat Orphanage – Tepoztlán, Morelos, Mexico 2015 – 2016

Elementary, Middle and High School Science and Math Educator

- **First certified and accredited teacher** that the orphanage has had in its 21 years since founding. Upon completing and developing the curriculum, it was packaged it in its entirety for future teachers to use.
- **Differentiated** instruction to make it project-based and hands-on with minimal direct instruction and no lecturing. **Montessori and Responsive Classroom** inquiry strategies were employed with the students.
- Curated personalized curriculum and approaches to diverse student body. 90% of students had a learning or physical disability and varied heavily in language, academic, and social abilities. Most students came from an impoverished background and have experienced a history of abuse, abandonment or minimal schooling.

Middle and High School Educator – Public, Private, and Islamic Schools across VA, MD, & DC 2007 – 2015

All STEM Subjects + Integrated Islamic Studies

- Taught 900+ students physics, biology, chemistry, earth science, space science, geology and plant science.
- Successfully differentiated for a **multitude of learners** and students with varying backgrounds, including centering instruction in each learner's unique identity and perspective on life.
- Designed **state-of-the-art science** lab from scratch through use of **technology, innovation and traditional** resources.
- Developed 3 distinct curriculums founded in STEM aligned with state and religious standards, still in use today.
- Connected students to other learners through the use of virtual classrooms and traditional pen paling.

OTHER WORK AND VOLUNTEER ACTIVITIES

Meta for Education Grant Speaker – Seattle, New Orleans, Colorado, Chicago 2022

- Co-designed and presented the Meta for Education Grant to 4k+ educators in several speaking engagements.

C3 Conference, Speaker – Los Angeles, CA 2019

- Curated an engaging workshop on ISTE standards and Makerspaces.

SXSWedu Conference, Speaker – Austin, TX 2018

- Selected out of 500 applicants as a speaker at the SXSWedu conference, which hosts over 10,000 people annually.
- Led an integrated workshop on “5 Ways to Drive Student Agency Using Goal Setting.”

Voice-over Actor – all states 2012 – Present

- Professionally trained voice-over actor, specialized in commercials, narration and animation.
- My voice is featured in various academic, Islamic, and learning tutorials for students, telephony, crowdfunding campaigns and in museum exhibits, including Microsoft, University of Michigan, FYI, MAS, and MiniMuslims.

LaunchGood, Fellow & Personalized Coach – Detroit, MI 2016 – 2017

- Participated in a fellowship program in a crowdfunding platform to support individuals launching philanthropic projects.
- Coached people in raising over \$150,000 in funds for their projects, campaigns, and creative ideas.

Spark!Lab, National Museum of American History (Smithsonian) – Washington, DC 2015

- Volunteered in the Lemelson Center for the Study of Invention and Innovation. Contributed towards exhibit development.
- Visitors aged 6-12 participated in hands-on labs that encouraged creation, exploration, and invention.

United Muslim Relief – Springfield, Virginia 2012 – 2014

Director of Educational Programs & Volunteer Abroad Coordinator

- Worked as a volunteer abroad coordinator and liaison for high school and college-aged students to work in orphanages and relief missions around the world, while developing skills through service. Each planned trip was focused around a certain educational focus. Ensured that volunteers were equipped and adept at teaching abroad in an ethical manner that steered clear of ‘voluntourism.’
- Developed specific programs for children in Mexico (Language Education), Palestine (Theater/Drama Education), Malaysia (Special Education), Haiti (Medical Education), and Senegal (Cultural Education).

Improv Actor – Across DC, Maryland, Virginia, California 2012 – Present
